

WHAT ABOUT SOUTH KITSAP SCHOOL DISTRICT STUDENT PERFORMANCE

Data compiled by Jeff Daily, Candidate for SKSD Board Director #5

Smarter Balance Testing Data provided by the district compiled by the Office of the Superintendent of Public Instruction (OSPI) reflects that scores went up somewhat for the district; fell for the high school but then again; but have fallen back to past rankings in 2015.. District will, of course; tell folks how great the district is doing. Bottom line: SKSD continues to trend steady and down with the exception of science scores. The overall District scores are about the same as they were four years ago with science also trending downward.

Another source is called School Digger: <https://www.schooldigger.com/go/WA/district/08160/search.aspx> Schooldigger has SKHS ranked at 216 out of 415. Others show about the same. One shows SKHS at 4 out of 10.

Following SKSD local rankings/performance is additional information taken from US News and World Report on Education: <https://www.usnews.com/education/best-high-schools/washington/districts/south-kitsap-school-district/south-kitsap-high-school-21194> for South Kitsap High School. This report provides rankings in the Washington State School Districts compared to the rest of our Nation.
